## At the mirror

On Friday, October 11th, at the Municipality of Prato Sesia, it will be the drawing workshop: "**At the mirror**" *watching and drawing ourselves*, with the illustrator [Vanessa Maria Mineo](#)

After the observation of some picture of famous artists' portraits, very different for time and method of realization, children will be asked to discover themselves (watching their own image in the mirror or their picture brought from home) and to draw an auto-portrait. When they have realized their work, the young artists can finish their drawing with a graceful frame. All the drawing will take part in 12th edition of International Drawing Competition "Colourful Rights"
